

Hey ,

I recently got a lot of request from my friends to help them secure internships primarily in Machine Learning, Software Engineering, Artificial Intelligence etc. at organizations including Amazon, Microsoft etc, so as my duty to help them; I compiled 10+ internship opportunities that are accepting applications.

(All these organizations were accepting applications while I was compiling this list, so if any of the organizations is not accepting applications now, then you might have missed the opportunity once again.)

- American Express invites applications for Internship in Analytics.
